

Justice & Health Partnerships

Ontario, Canada

Change We Are Trying to Create

Mapping study: Ontario's Justice & Health Partnerships

2018 Direct service delivery

Local Impact of CALC Initiative

Over 600 referrals received from healthcare providers (HCPs) - 10x as many as before the project launch.

50% of referrals are from rural areas, an underserved population.

50% of referrals have not accessed help from the legal clinic before. This jumps to 64% when looking exclusively at rural referrals.

We trained over 250 HCPs on how to spot poverty law issues.

Nearly 90% of HCPs reported they were better able to identify legal issues because of the project, and were more likely to refer their clients for legal help.

We have been able to intervene early and prevent problems from escalating in 93% of referrals.

The project is valued by our HCPs. 94% reported the project is helpful to them. 97% reported the project is helpful to their patients.

"The Justice and Health network has changed the way that we think about client problems. It makes us think we have hopeful resources for them. It is empowering for them to get help to resolve a problem. The legal clinic is extremely welcoming, open to providing support in whatever way that would be helpful to us. The heart that they bring to it is so evident."

Healthcare Provider (2017)

Unexpected Value Added

TIMELINE & Nature of partnerships

IMPROVES

- early intervention
- social determinants of health
- legal health
- legal literacy

What kinds of legal problems?

Resulted in some changes in service priorities

Simplified logic model for CALC Rural Justice & Health Project - 2019

What does the future hold?
